- 1x Propprep wipe
- 1x 96ml Etching Primer Base
- 1x 24ml Etching Primer Hardener
- 1x 80ml Clear Coat
- 1x stirring stick

COVERAGE GUIDE FOR PROPELLER:

1x Propeller: 12-24"
A surface of 7.5ft²

ALL-IN-ONE PROTECTION

Defense against marine growth & corrosion for all underwater metal assets.

SUPERIOR ADHESION TO METAL

Strong long-lasting adhesion to metals that makes Prospeed unparalleled to other products on the market.

MULTI-SEASON

Long-lasting solution that, when applied and maintained correctly, protects underwater metals for 1-2 years.

BIOCIDE FREE

Foul-release, not antifoul. Foul-release coatings create a surface that's tough for marine organisms to adhere to.

HIGH-PERFORMANCE SYSTEM

Specialised coating technology: the original and still the best foul-release system trusted globally for 21 years.

“After a 259-day round-the-world journey, the prop and shaft were still spotless, thanks to Prospeed.”

– Jeanne Socrates, Oldest person to solo-circumnavigate the world
