FOUL-RELEASE COATING FOR TRANSDUCERS

Foulfree™ has been developed for superior adhesion to any transducer faces. Foulfree keeps transducers clean and operating at the top of their game for the clearest sonar images possible. **Designated by AIRMAR** as a certified transducer coating, Foulfree was rigorously tested and proven to be transducer safe, reducing the maintenance needed to keep transducers clean and streamlining water flow over the transducer face for a minimum of 12 months.

*AIRMAR certifies that the application of Foulfree coating on its transducers results in no loss in transducer performance.

Product Code: FFKIT

- KIT INCLUDES**
- 1x XDclean wipe
 - 1x XDprime wipe
 - 1x Foulfree 15ml tube
 - 1x Applicator brush
 - 1x Abrasive pad
- COVERAGE GUIDE**
- One 15ml kit will coat 1ft²

TRANSDUCER SAFE

Certified by AIRMAR* and developed specifically for it's transducers to ensure sustained performance.

PROPSPEED'S FOUL-RELEASE

Developed from **the original foul-release coating's technology**, with the same promise of proven performance experienced by captains and boat owners worldwide.

EASY TO USE

The application of Foulfree can be completed in **3 easy steps:**
1. Clean - 2. Condition - 3. Apply

BIOCIDE FREE

Foul-release, not antifoul. Foul-release coatings use physical means to reduce fouling, **creating a surface that's tough for marine organisms to adhere to.**

SEE THE REAL PICTURE

A foul-free transducer equals more **clarity, detail and visibility below the waterline.**

CASE STUDY

Click [here](#) to view our case study.

"Propspeed's Foulfree transducer coating is amazing. Goes on easily and smoothly and dries like glass. The transducer looks like a mirror. I can't see anything sticking to that."

– John Camar- Captain of A Lure Sportfishing
